Mission Statement

Our mission is centered on the belief that life has its own value. Throughout the millennia, horses have shared a special relationship with mankind; it is in this spirit that our organization attends to the needs of our equine friends.

Our goal is to provide care and security for our horses in a natural lifestyle, to work with local humane organizations when caring for any horse in need, to provide education to the community concerning the health and welfare of horses, to provide support for our youth and community services in our county.
